

Air 1 is the only contemporary Christian music channel in our community. therefore it provides the only type of music available in our community. I know several people in our community who would be lost without Air 1. It also is the only station to provide updates on concerts and seminars in our area. Air 1 is the only station to air all music that is positive, encouraging, and uplifting. As a parent of 4 children and a youth minister the loss of Air 1 in our community would be a tragedy
